dations and pleasant retreat from the cares of

business at any house in Nevada. A share of

public patronage is respectfully solicited.

FRIDAY JAN 22, 1875

THE POTTER LAW.

The most important measure likely to demand the attention of the Wisconsin Legislature during its present session, is the well known "Potter Law." Undoubtedly, a strenuous effort will be made by the railroad companies to secure its repeal, or modification, so that it will be of little or no benefit to the people. All the influences of a powerful lobby will seek its obliteration from the statute books. The various artifices known to the railroad men of the State will be exercised for their interests, and against the welfare of the people. It is not enough as claimed by some, that the principle of State control of railways has been established. The rights of the people must be protected. The railroads have given no guarantee of a willingness to do justice. For months they defied the law, and even now they are obeying it only because they dare not longer trifle with the people. If the Potter law is unjust and it is so shown, let it be amended. The people we opine seek nothing but their rights. They do not ask for a persecution of the railroads, they want only justice and are willing to give it. If the Potter law is repealed or killed by amendments the railroads will again be masters of the situation, and the people of the State will be at their mercy. This should not be allowed.

THE DIFFERENCE.

As between Germany and the United States the outlook with regard to education is not a very flattering one for this country. The population of Germany placed at forty-two millions, is about equal to that of the United States, but see the difference as far as education is concerned, in Germany there are upwards of one hundred thousand teachers in the public schools, and the number of pupils between six and fourteen, exceeds six millions. Then, too, the number attending private primary schools is about five hundred thousand while those who attend the higher schools, academies, gymnasia, technical schools, and universities, exceeds five hundred thousand, making a grand total of seven million scholars. The United States can scarcely exhibit half that number, and when we are told that the Germans consider the compulsory feature the backbone of their whole school system the question naturally arises, cannot Americans take a hint to advantage.

THE SPEAKERSHIP.

In the next Congress the South will have at least seventy Democratic votes, a larger number than that party, either in the East or West, will send, and will probably elect the Speakership. The most prominent candidate yet named is L. Q. C. Lamar, of Mississippi, about whose reelection next Summer there seems to be no doubt. Mr. Lamar was one of the first Southern Democrats to shake hands across the bloody chasm and his noble and unaffected tribute to Charles Sumner last Spring won him the hearts of thousands of northern men. If the South claims the next Speakership, let Lucius Quintus Curtiss Lamar, of Mississippi, be her candidate by all means.

INDEPENDENT.—The State Central Committee of the Independent party of California met in San Francisco yesterday. They decided to call a State Convention in Sacramento during the coming Summer, for the purpose of nominating a straight-out ticket.

"Am I not a little pale?" inquired a lady who was short and corpulent, of a crony old bachelor. "You look more like a big tub" was the reply.

The wish of an office seeker—"O that I were an event, that I might take place."

THERE is not much sickness about here.

The days are lengthening.

I have a tendency.

A correspondent of the St. Louis Republican, who was on a visit lately to the Pacific Coast, had an interview with the Hon. John P. Jones. We append the correspondent's language.

THE MANNER OF MAN JONES IS.

Though Senator Jones measures his income by the million, he is probably the most unspoiled millionaire in the United States at this moment. As his name would indicate, he is Welsh by birth having arrived in the United States when only two years old. Many of his advisers think that this is the only possible circumstance that could shut him out from the Presidency in time. After a careful interview of upwards of two hours, I am prepared to say that I was astonished at his capital command of nervous idiomatic English, at the breadth and cogency of his views and at the range of his reading and splendid vigor of mind. He is eminently a self-made man—one who, from humble beginning, has classed himself with the first men of the nation, for his speech on the financial question, whether we accept his ideas or not, had simply that effect with thinking people. It must be remembered that this man, who to day only fails to riot on his own millions, because he has the self contentment and modesty which make riches a power, has spent the greater part of a laborious and strenuous life struggle as poor as Job's turkey. The poverty of the traditional church mouse was not greater than he has encountered in portions of his career, and he is the same man in the hour of his triumph as in his time of struggle. In person he is of medium height, stout in stature and strong as an oak. The virility which can endure everything and achieve everything, sticks out from his whole physical being. A bright, quick hazel eye, a good brow, surrounded by hair up to white, a sable beard, slightly silvered, and an alert and decisive manner, with cordiality beaming from every lineament for his friends complete the salient physical peculiarities of a man who in his check for several millions of hard coin, and never know inconvenience therefrom.

CONTRAST AND A HAPPY POLITICAL COMPETEMPS.

Senator Jones spoke without egotism of his past career. Appealing to the gentleman who was with your correspondent, and who, by the way, was not only in old newspaper man but in old miner as well, he asked the latter if he remembered the times when they used to work in the mines together for thirty cents a day. My companion had been on the State ticket with the Senator when Jones and George C. Gorham ran for Lieutenant Governor and Governor, respectively. That was in 1867, and the whole three were disastrously defeated. "But defeat," said my host, "was the making of me. If I had been elected I should probably have always been a nobody. Like as not I should have culminated in a political hummer. As I was defeated and out of pocket I had to turn my attention to something and I went out to Virginia City as superintendent of the Crown Point mine. To my defeat I owe all that I am. Let the politically unfortunate profit by this shining example."

WHAT HE THINKS OF GRANT AND A HINT AS TO MEXICO.

The conversation turning on Mexico, Jones dwelt on the mineral riches of this section and expressed regret that under Mexican rule there was no possibility of their development. He thought it would not be long before the Northern provinces at least would belong to the United States. Grant he said warmly favored their annexation, and would in all likelihood inaugurate some policy to that end before the close of his administration. The Senator's opinion of Grant had improved greatly on personal acquaintance. He had many valuable and interesting qualities. He was the staunchest possible friend. The President had a great liking for practical men, and could not really bring himself to tolerate an intriguer or politician. To a question as to whether Grant, Mr. Buchanan was not fond of rich men the Senator's answer was in the affirmative.

A GLIMPSE AT JONES' OPERATIONS.

Perhaps no better idea of the magnitude of Jones' operations could be given than is conveyed by a portion of his conversation. He has lately been giving considerable attention to the development of the Panamint mining district in Southern California. He said that the mines he and his friends were interested in, that section will yield a thousand tons of ore a day which would average \$100 per ton. By special contract they can deliver this ore at Swansea for reduction for \$45 per ton. This would leave a net profit of say eighteen millions a year, to say nothing of the Comstock lode. Jones cannot possibly be over fifty. If he lives to be as old as Commodore Vanderbilt what a modern Cressus he will be! Your readers must understand that this is his own calm estimate, and that he don't propose to put a dollar of stock based on these Panamint mines on the market.

HIS VIEWS OF THE RICHEST NATION—COMMUNISM.

One of his financial views is the

that nation which should first get down to a gold and silver currency, and tolerate no other, would, in the long run become the richest nation in the world. You could not require the sweat of a man's brow by rigs. The shock of a return to a hard money currency would undoubtedly be severe for a time. Values would fall, but people would be able to buy more with less money. Gold would flow into the country because commodities would be cheapened. In another part of our informal chat the Senator referred to the growth of a communistic sentiment in the United States. Capitalists affected to despise the mob but it was all a millenarian opinion that the horny handed sons of toil would ultimately win in the fight. "I am glad to think," says Jones, "that the struggle cannot come in my day. I have a good deal the feeling of the Frenchman, after the deluge."

A WELL READ MAN.

Senator Jones' poverty in early life debarred him from the advantages of an early education. He is, however, a remarkable, well read man. In his hours of leisure up in family county—in the intermissions of the pick and pan—he reads eagerly and perseveringly, and to day few of the pretentiously scholastic men who sit in the United States Senate could exceed him in the aptness or extent of his historical allusions. He has sounded the whole gamut of English literature, and little that is pregnant of wit or thought in that mistress field has escaped his memory. His own men of business and culture in his eye cannot enjoy the satisfaction of planning themselves upon being the superiors either intellectually or scholastically of this fortunate and studious frontiersman.

TELEGRAPHIC.

Special to the Daily Journal by West Union Telegraph Co.

EASTERN DISPATCHES.

Resisting the Law.

AUGUSTA GA Jan 21. Gen M C Butler's residence in Ligfield county South Carolina was burned recently by an incendiary who confessed that a colored militia captain, named Tennent, hired him to fire the building. A warrant was issued for the arrest of Tennent, but he resisted the colored Constable, who called upon Gen Butler for a posse. The General and eight men accompanied the Constable to Tennent's retreat and fired upon him. The fire was returned and three Negroes wounded, two mortally. Tennent and part of the posse is apprehended.

Cum Grano Salis.

CHICAGO, Jan 21. A Washington special says there is quite an effort to magnify the President's message transmitting the recommendations of the ordinance of free for using the coast fortifications into a warlike document. There seems to be no foundation whatever for this. It is quite apparent that a Cuban ring of some strength is operating both here and in New York, and for this reason all reports from here are present not strictly official should be received with much suspicion.

Another dispatch says the House has sent a journalist to jail and in so doing has established a very curious precedent. He was sent there not because he had refused to answer any question but because he was imprudent in answer to questions. All but the fourteen Members who voted against the resignation have decided that an impertinence to the House is to be punished by imprisonment at the pleasure of the House. Wetmore's answer to the rule on him to show cause was very ill judged, in temperate and insolent. No journal here defends it and it is palliated only by the painful apprehension that possibly it was the production of a disordered mind. Gen Garfield intimated as much to the House. Wetmore has been ill for some weeks with a slow malarious fever. His physician said that he last night was in a quite serious condition and it is thought possible that the excitement incident to the events of yesterday may have disturbed his mind. The committee on Ways and Means after the precipitate action of the House, fearful that they had punished a man for what may possibly prove a disease, directed the Sergeant at Arms to procure skillful physicians to examine him.

WESTERN DISPATCHES.

(SPECIAL TO THE JOURNAL.)

PACIFIC COAST.

Weather Outlook.

CALISTOGA, CAL, Jan 20. The storm has subsided, yet with some indications of more rain. Lake county stages start this morning. The creeks have fallen considerably since yesterday. Weather clear.

The Result.

SROCKTON, CAL, Jan 20. The result of the late heavy rains in this county and vicinity is thus summed up. The Calaveras river is over its banks, a large body of water is flowing over the plains, a portion of the Stockton and Copperopolis Railroad track is submerged, trains to day are delayed, water in Mineral avenue, the channel in the centre of the city is higher than at any time except 1862, thus far no overflow in the city, the water in the principal sloughs has subsided several inches since noon, the County Hospital grounds on the east side of the city are two feet under water, the total rainfall for the season, up to this evening seven and sixty nine one hundredths inches, weather now clear and bright, dispatches and advices from the interior portion of the county say great overflows of all rivers and creeks in this county also in Merced Stanislaus and Fresno have burst the bounds and are now immense bodies of water. The Mokelumne river overflowed the levee south of Woodbridge, overflowing the country for miles. Water is also reported in the town of Woodbridge, the residents use boats to get around. No damage is reported from the overflow thus far. It is believed very little has been done in this county.

Origin of the Fire.

SAN FRANCISCO Jan 21. The investigation of the origin of the fire at the Deaf, Dumb and Blind Institute at Berkeley has been ended. The Directors found a verdict exonerating the Principal teachers and employees of all blame. They consider the exposure of the roof to sparks from the kitchen chimney sufficient account for the fire.

Flood.

CASPERVILLE CAL, Jan 20. The greatest flood in this valley for twenty years last night and this morning. The whole valley is under water, bridges in this section have been carried away many ranches driven from their houses. The damage to property must have been considerable. We have heard of no loss of life. To day it is clear and pleasant.

LATER.—Parties arriving from the Monterey Narrow Gauge Railroad report a large portion of the road and bridges washed away at the crossing of the Salinas river. No trains from Monterey have arrived at Salinas since Sunday morning.

Marysville Flooded—Loss of Life and Property.

SACRAMENTO Jan 20. The evening steamer from Marysville at 3 o'clock this afternoon brings the intelligence that water broke through the levees at 7 o'clock last evening and in less than an hour the whole city was flooded. All houses and other animals were taken to the railroad bridge safely. The people also took refuge there. Many lives are reported lost. Three children are known to have perished in one house. Some of the principal buildings have fallen down. The wreck from property saved is very extensive. Punks big levee in Sutter county was broken and the whole district flooded. The water is six feet deep in the city and four feet in the Western Hotel, one of the highest points. Yuba City is also under water. The flood is with in six inches of Feather river bridge. The railroad track across the Yuba bottom is washed away for some distance. Two passenger trains were interrupted by breaks in the road between Wheatland and Marysville. At present there is no communication with the city, and the weather still threatening.

Fatal Accident—Weather on the T. P.—Ten Men Probably Killed.

SALT LAKE, Jan 19. Albert Stickney was killed in Summit cañon last Saturday by a snow slide. The body was dug out yesterday. He leaves a wife and four children.

The weather along the U P Railroad is moderating. Trains are running more regularly than for the past ten days.

William Stensby, of Milwaukee, Superintendent of the Cooper mine, at Big Cottonwood cañon, has been missing since last Monday. It is feared he, with a party of ten or twelve miners, who were last heard from at Alta City, were buried under a big snow slide, which occurred near that place that day.

SECOND DISPATCH.

Weather—Mails—Steamer Arrival—From Julian—From Arizona—Etc.

SAN DIEGO, Jan 20. The weather during the past three days has been very disagreeable, though not very stormy. But little rain fell until last night when it rained about two hours and a half splendidly, one third of an inch falling. Most of the time it has been foggy, though the Sun came out warm and bright for several hours yesterday. Grass has started up nicely. To day it has been variable—showers fog and sunshine. Tonight it is cloudy with a strong west wind.

No mail from the North since Sunday night. The steamer Costa Rica from Panama arrived at 5 o'clock.

A letter to the World from Julian, Jan 15th, says Mr J W Poscoe who made the original survey of the Geyser which caused much litigation, which has since been thrown out by the Interior Department visited Julian last Monday. The citizens hung and burned him in effigy. It had been storming hard since Saturday night. It is reported the Chariot mine had struck an immense volume of water in the shaft. The Ready Relief mill is running steadily day and night on good ore. All the other mines are looking well. Everything looks cheering.

The Union has the following dispatches from Arizona.

TUCSON 19.—In the House, the Committee on agriculture returned the petition well bill with the recommendation of five thousand dollars to be paid to the first person or persons obtaining flowing water in a distance of not less than five miles from running streams, striking out the clause providing a reward for a lesser distance.

YUMA 19.—The Colorado Steam Navigation Company's steamer Coco piti arrived last evening with the passengers and freight of the steamer Montana and Newbern. The Montana's freight is reported to be in good order, very little, if any damaged. The Newbern will tow the Montana to San Francisco as soon as her freight is discharged.

PRESOTT 19.—It is reported from Camp Verde, that Major O Gillins command consisting of detachments from the 8th Infantry and 5th Cavalry, which has been scouting from Camp Apache, through Ponto Basin, toward Camp Verde, since the 2d inst, has met with great success. Thirty two Indians prisoners are with the party, the advance of which, under Lieutenant Landon, has already reached Camp Verde.

From China and Japan, SAN FRANCISCO, Jan 21.

The Pacific Mail steamship Coloma do arrived this afternoon. She left Hongkong Dec 12, arrived at Yokohama Dec 19, left 22, fourteen cabin, 30 European steerage, 330 Chinese passengers. Cause of delay driven south by a northwest gale, put in at Honolulu Jan 9th for coal, left the 12th. The following are the advices from China and Japan. SHANGHAI, Dec 11.—Hongkong, Dec 12.—An unsuccessful attempt to float the steamship Alaska.

YOKOHAMA, Jan 22.—A monument is to be erected in January by Messageries Maritimes Company on the spot where the bodies of those lost on the wreck "Nil" and buried.

Arrangements are completed of beginning the new postal system January 1st.

Intelligence has been received from the King of Denmark who personally forbade the sale of the Danish iron clad to the Chinese government, while the difficulty with Japan remained unsettled.

The present refusal to exercise jurisdiction it is said grew out of a quarrel with Capt MacConley, of the Lac Kawanna, previously reported. The Japanese Government has appropriated \$1,600,000 to the construction of harbor wharves at Yokohama, work to be commenced immediately.

DR. A. B. SPINNEY.

WELL KNOWN throughout the country as a Pathologist and Physiologist whose successful treatment of certain physical disabilities and functional derangements deservedly entitled him to the familiar recognition of the GREAT SPECIALIST would respectfully inform the citizens of Virginia City, Nevada, and vicinity that he can be consulted at No. 188 South C Street, Virginia, seven doors north of the French Drug Store, at his office thus giving invalids an opportunity of adding themselves, through his professional agency of such constitutional anomalies and ailments as he claims to compass and to cure. Without entering into biographical details it is sufficient to simply promulgate the fact that DR. SPINNEY'S earliest reputation may be traced back to his magnanimous and conduct of the Montreal (Canada East) Medical Institute. The regime of the English Pharmaceutical Colleges is judged by an elevated standard. An extended experience and an assiduous study of the varied phases of disease enables him to guarantee assistance of success in the eradication of the multifarious chronic affections incident to both sexes such as Nervous Debility, Exhausted Nerve, Youthful Excesses, Marriage Impediments, Chronic and General Afflictions.

TO THE LADIES.

DR. SPINNEY while naturally impressed with the delicacy of the subject, feels no hesitancy in assuring them that, in conjunction with a competent knowledge of their various and ings, such as Nervousness, Neurasthenia, Spinal Weakness, Loss of Appetite, Lassitude, Protrusion Uteri, Retroversions or Displacement of the Womb, Vaginal Irregularities, Leucorrhoea, Dyspepsia, Indigestion, Constipation and the many petty, irritating distractions that almost invariably have their origin in the female region afford them immediate relief.

YOUNG MEN.

Who may be suffering from the effects of youthful follies or indiscretion will do well to avail themselves of this greatest boon ever put at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit five hundred dollars for every case of seminal weakness or private disease of any kind or character which he undertakes and fails to cure. He would therefore say to the unfortunate sufferer who may read this notice, that you are dealing upon dangerous ground when you longer delay in seeking the proper remedy for your ailment. You may be in the habit of remembering you are approaching the last day of your life, but you are not aware that you are suffering some of all its evil effects. Remember that if you object to the cost when the most skillful physicians can render you no assistance, when the door of hope will be closed against you, when no angel of mercy can but, you reflect. In no case has the Doctor failed of success. Then let not despair work its evil upon your imagination, but avail yourself of the beneficial results of his method of treatment in case beyond the reach of medical skill or before grim death hurried you to a premature grave.

COME AND BE HEALED.

It matters not what your trouble may be, come and let the Doctor examine your case. It will cost you nothing for consultation so please call and satisfy yourself whether the Doctor understands your case. If he can cure you he will tell you so, if not he will say so for he will not undertake a cure unless he is confident of effecting a cure.

MIDDLE-AGED MEN.

There are many of the age of thirty to sixty who are afflicted with too frequent evacuation of the bladder often accompanied by slight smarting, or burning sensation and weakness of the system in a manner the patient cannot account for, on examining the urinary deposits aropy sediment will often be found and sometimes small particles of blood will appear on the clot will be of a dark and milky hue again changing to a dark and rapid appearance. There are many men who die of this difficulty, ignorant of its cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases and a healthy restoration of the genital organs.

N.B.—Only an interview required in a majority of cases. Balance of treatment can be completed at home without interruption of business. No cases treated without a personal interview and proper examination. Office hours—10 to 1, 2 to 4 and 7 to 8. Consultation Free. Examination and advice, 25c. so if

PROCEEDINGS OF THE DISTRICT COURT.

RENO, Jan. 21, 1875.

The following are the proceedings of the District Court. Hon. S. H. Wright presiding:
Patrick Hogan vs. B. Hogan et al.; demurrer argued, submitted and taken under advisement.
Rowland vs. Poe Consolidated Mining Company; demurrer argued, submitted and taken under advisement.
Court adjourned until Monday, Jan. 25th.

STEAMBOAT SPRINGS.—Steamboat Springs are being renovated and refitted at a great cost, by the present proprietor, Matt Rapp. It is his intention to rig up an engine and pumping machinery for the purpose of bringing the water from the main spring into the bathing houses for shower baths. He is going to build new houses, plant trees, irrigate, paint and otherwise make a first-class Summer resort of Steamboat. We wish him every success with his improvements.

DANGER AHEAD.—We desire to call the attention of the public to the man-trap in the rear of the Masonic Hall. The excavation should be filled up immediately, as there is no telling on what dark night a serious and maybe fatal accident might occur. It would be no trick at all for a person to fall from the sidewalk.

WANTED.—A man who knows how to run a newspaper to please everybody, and serve all in the way of subscription and advertisements for nothing. Such an individual can obtain a situation with us for life, and will deserve our lasting gratitude. Please call early.

LETTERS DETAINED.—Letters addressed to the following persons are detained in the Reno postoffice for lack of the requisite 3 cent stamp: H. Levy, 1205 Folsom street, San Francisco, and F. Gleason, 562 Washington street, Boston.

ALL RIGHT.—The trains are all running on time again; the telegraph instruments click as loudly as ever, and the goose hangs high.

HOME AGAIN.—Mr. J. N. Jaquish has safely returned to his home by the setting sun. His Eastern trip was a very pleasant one.

THE NEW CHARTER MEMBERS OF THE Knights of Pythias are requested to meet this evening at Odd Fellows' Hall.

TOM HYMER'S new name—The whiteheaded Jew.

THE MASONIC social last evening was an enjoyable affair.

DELINQUENT SALE.

NEVADA STATE GOLD AND SILVER MINING COMPANY.—Location of works, Peavine District, Washoe County, Nevada. Principal place of business, Reno, Nevada. Notice.—There is delinquent upon the following described stock of the Nevada State Gold and Silver Mining Company, on account of assessment (No. 5) levied on the 14th day of Dec., A.
